Here we correct the following typos that appear in Fig. 1:

- The label for the vertical axis reads “nncollaboration-connection-communication between levels”.
- The label for the horizontal axis reads “collaboration-connection-communication across levels”.

Please see the corrected figure below.

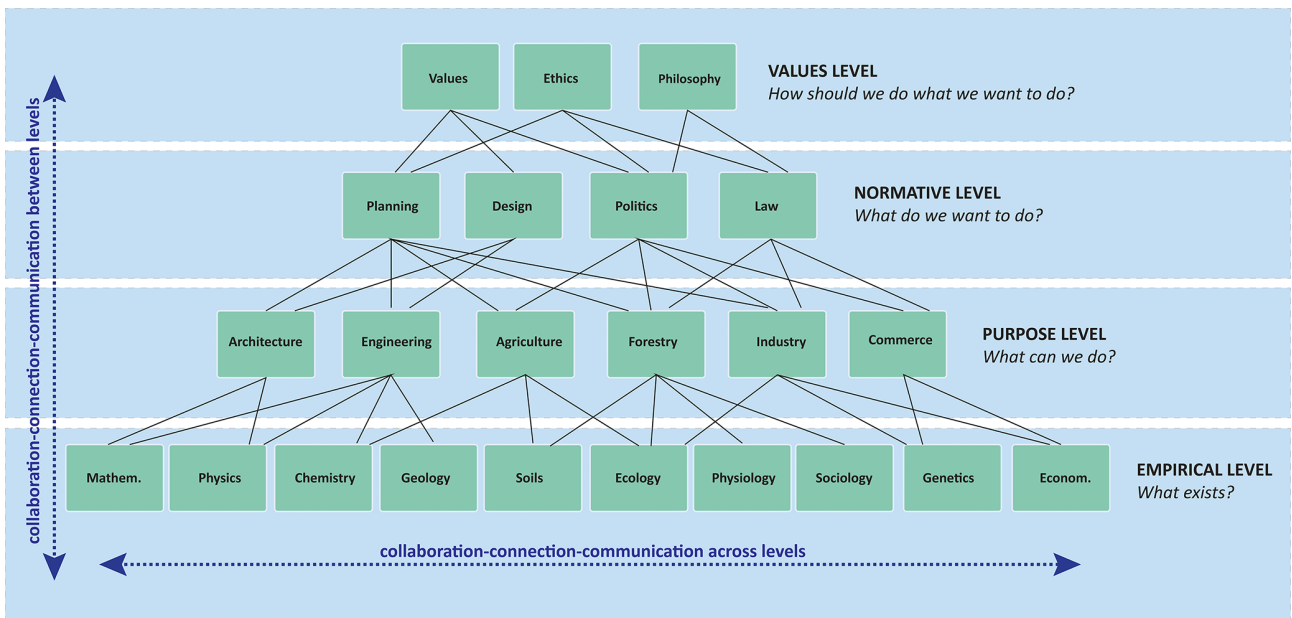

Figure 1. The pyramid of transdisciplinarity: continuous coordination/exchange between all hierarchical levels (adapted from Max-Neef, 2005; relations between tiers are suggestive and may change based on the project at hand).
