

Minor corrections checklist

- 1) adding some more detail to the Methods section, particularly on the methods of data collection and the analysis of the qualitative data
- 2) improving the clarity of the written English by correcting confusing grammatical errors (see author comments for more information)
- 3) at least a better reference and a clarification of the instruments used to collect data
- 4) a more precise description of the results, namely with a discussion with reference to the literature in the area - with the certainty that the images can be published
