

Interactive comment on “Using PhET™ Interactive Simulation Plate Tectonics on Initial Teacher Education” by Bento Cavadas and Sara Aboim

Clara Vasconcelos (Referee)

cvascon@fc.up.pt

Received and published: 13 October 2020

I consider the answers of the authors more than satisfactory and I suggest the publication of the article after the incorporation of the comments given by bento and Sara.

Interactive comment on Geosci. Commun. Discuss., <https://doi.org/10.5194/gc-2020-34>, 2020.
